Elena Rostova

elena.rostova@nlp-ai.org | +1-555-0105 | Boston, MA

Professional Summary

Machine Learning & NLP Specialist with 5 years of experience researching and deploying transformer models, fine-tuning LLMs, and building RAG pipelines using Python, PyTorch, and LangChain.

Technical Skills

Python, PyTorch, HuggingFace, Transformers, LangChain, Vector Databases, ChromaDB, FastAPI, NLP, Machine Learning

Work Experience

Senior ML / NLP Engineer — *Cognitive AI Systems (2022 - Present (3 years))*

Built production RAG search engines using ChromaDB and PyTorch transformers, boosting semantic query relevance by 55%.

AI Research Scientist — *NeuralLab Boston (2020 - 2022 (2 years))*

Fine-tuned open-source BERT and Llama models for biomedical entity extraction and question answering in Python.

Education

Ph.D. in Computer Science (NLP Specialization) - MIT (2020)
