Tariq Al-Mansoor

tariq.am@dataeng.net | +1-555-0108 | Houston, TX

Professional Summary

Lead Data Engineer with 7 years of experience constructing scalable ETL/ELT pipelines, real-time streaming architectures, and lakehouses using Python, PySpark, Snowflake, and Apache Airflow.

Technical Skills

Data Engineering, Python, PySpark, Apache Airflow, Snowflake, Kafka, SQL, dbt, AWS, BigQuery

Work Experience

Principal Data Engineer — *EnergyStream Data (2021 - Present (4 years))*

Architected multi-terabyte data lakehouse in Snowflake using dbt, reducing query cost by /year.

Senior ETL Developer — *OmniData Analytics (2018 - 2021 (3 years))*

Engineered automated Airflow DAGs and Kafka streaming consumers in Python processing 80GB of telemetry per hour.

Education

M.S. in Data Engineering - Texas A&M; University (2018)
