Liam O Connor

liam.oc@embeddediot.ie | +1-555-0110 | Dublin, Ireland

Professional Summary

Embedded Systems & Firmware Engineer with 5 years of experience writing low-level C/C++ and Rust for microcontrollers, RTOS kernels, and industrial IoT hardware.

Technical Skills

C, C++, Rust, Embedded Systems, FreeRTOS, Linux Kernel, I2C, SPI, IoT, Microcontrollers

Work Experience

Senior Firmware Engineer — *Nordic Edge Systems (2022 - Present (3 years))*

Authored secure BLE telemetry firmware in C and Rust for battery-operated environmental sensors.

Embedded Software Developer — *Industrial Automation Ltd (2020 - 2022 (2 years))*

Developed hardware abstraction drivers for ARM Cortex-M processors in C.

Education

B.Eng. in Electronic Engineering - Trinity College Dublin (2020)
